BOW ISLAND, ALBERTA, FRIDAY, MAY 17, 1918

SUBSCRIPTION 1.50 A YEAR

ARROW fadeless SHIRTS

A NEW shirt may look good, but beauty in a shirt does not necessarily mean service. The Arrow label marks the shirt that combines style and service. It is your guarantee that the garment is made of durable, fadeless fabrics, in such a careful, thorough way that we depend upon its good qualities to sell you another shirt with the same label.

Board of Trade.

Race Track Wanted—July First Committee Appointed.

A Board of Trade meeting was held on Monday night. President Werts was in the chair, and in addition to the secretary (A. Rolfe), there was a fair attendance of members.

After the reading of the minutes the first matter to be introduced was with reference to making a playground for the children.

Mr. Pollitt said he had communicated with a Professor Wallis of the Y. M. C. A. at Calgary and thought a letter had been received from him.

This letter was read. Mr. Wallis saying that he would be pleased to visit Bow Island and give whatever advice he could, his expenses to be paid by the town.

Eventually the matter was left in the hands of the committee to make further arrangements.

A letter was also read from the Hon. Duncan Marshall saying that no agricultural schools were being established at the present time, but assuring Bow Island that its claim for a school would have every consideration.

The matter of holding the sports on July 1st was then discussed, and committees and officers were appointed as follows:—

J. W. Reid, chairman, and A. E. Werts and R. S. Beattie as the main committee, with power to appoint sub-committees.

The matter of building a race track at the park came up in connection with the above, and after several of the members had spoken in its favor, it was finally left in the hands of the sports committee for them to interview the Council and endeavor to get something done.

The matter of holding an agricultural society in Bow Island also came up, but it was decided to hold this over until the next meeting to see whether it would not be possible to interest some of our farmers in the project. The meeting then adjourned.

Amalgamated Fair at Lethbridge.

Of special interest to Southern Alberta breeders will come the announcement of the dates of the Southern Alberta Amalgamated Fair and Stampede which will be held in another column.

This fair which will be held in Lethbridge July 22nd to 27th is a consolidation of the fairs held in Lethbridge, Raymond, Magrath and Cardston and promises to be the biggest event of its kind ever held in Southern Alberta.

The Raymond, Magrath, and Cardston Agricultural Societies have abandoned their fairs for 1918, and are bending all their energies to bringing the Amalgamated Fair to a successful issue.

The Prize List is now ready for mailing, and provide liberal classes for Live Stock and Poultry as well as Field crops, and Dairy products, Arts, and Crafts, etc.

A special department has been erected for girls and boys from nine to seventeen years of age, and classes have been provided for fairs, calves, ponies, pigs, and poultry as well as for needlework, school work, gardening, etc. In all over 800 has been appropriated for prizes in this department. In all classes for live stock exhibited for boys and girls, the entries must have been cared for from May 15th to the date of shipment to the exhibition by the exhibitor, who must also personally exhibit their entries in the show ring.

A copy of the prize list will be mailed on application to the manager, W. McC. Moore, Lethbridge.

Lost.

A small Red Greyhound, part of right ear missing. Answer to the name of "Dan." Lost southeast of town near Compuergood wheelhouse, probable reward given, for recovery dog—Clara Houghy, Bow Island.

Meeting Discusses Town Matters.

School Trouble is Satisfactorily Disposed of.

A public meeting was called by the Acting-Mayor, W. J. Oliver, on Friday evening last to discuss matters in connection with the town, rendered necessary by the resignation of a majority of the Town Council.

Mr. Oliver took the chair and after a brief explanation as to his reasons for calling the meeting, called upon those present to give their views. He said that among the subjects to be discussed was the matter of building a sidewalk down to the new school and also one up Broadway. He also mentioned the fact that the gas superintendent had submitted a report relative to the gas well, which he thought would require serious consideration.

The different matters were discussed, but owing to the fact that it was not a business meeting nothing definite was done in anything.

After town matters had been dealt with, the meeting took up the matter of the new school.

In this connection, it appeared that Mr. Robertson had secured the services of a Mr. Lang, architect, to give an impartial report upon the new structure.

Mr. Lang stated that he was satisfied the people were getting a good job, and he had failed to find anything wrong. Replying to a question relative to the foundation, he said the brick and tile which had been inserted was superior in his opinion, to the concrete. It was impossible, he said, to get the proper gravel in this country to make good concrete, and replying to another question, said the brick and tile would cost more than the concrete. Several other matters in connection with the building were also gone into, and eventually several of the ratepayers expressed their complete satisfaction with the report of Mr. Lang and after his explanation of the different matters under discussion were quite satisfied that a first class job was being done.

The Chautauqua.

Officers and Committee Appointed.

After the Board of Trade meeting on Monday night, Mr. Robertson announced that he had received literature, tickets, etc., in connection with the Chautauqua which is to be held in Bow Island from June 12 to 19. He stated that as the time was rapidly approaching it was necessary to do something at once. An advanced agent would be in town on Thursday, and it was this agent's desire to meet the committee and arrange matters in detail.

After some discussion, the following officers were appointed:—

R. H. Robertson, President.
J. W. Reid, Vice-president.
A. F. Werts, Secretary.
J. M. Milroy, Treasurer.
Tickets committee—R. S. Beattie, Advertising—S. Y. Hurst, W. P. Cotton and R. L. Stone.

Grounds—C. H. Bell, Geo. Bell and J. W. Hurd.

All the above together with any other members of the public that care to be present will meet the agent of the Chautauqua in A. F. Werts' office on Thursday evening of this week.

A "Super-Wheat."

Santa Rosa, Cal., May 16. A "Super-wheat" containing 14 per cent gluten has been evolved by Luther Burbank, the noted horticulturist, after experiments extending over 11 years. The new wheat may be grown from Burbank's Bay in Patagonia and is intended to replace the California variety with its low contents of gluten.

The new wheat is said to be of the bluish variety, very hard and producing a very white flour.

Local and General

Lost—An alligator purse, about five inches long, with claws attached. Lost between Mrs. Sutton's house and C.P. B. depot. Finder please leave same at Review office or appropriate with Mrs. P. Sutton, box 46, Retlaw, Alta.

The Bishop of Calgary conducted services at All Saints' last Sunday morning. In the afternoon he addressed the Sunday School and in the evening administered the rite of confirmation to six candidates. Good congregations were present both morning and evening, and included not a few from Bardett and Grassy Lake. The addresses given by the Bishop were greatly enjoyed. It may be of interest to many to state that the Bishop of Calgary is now the senior Bishop for all Canada. Thirty-two years of his life have been spent here in Alberta.

Gerald Dullage left last week for Regina to connect up with the I.N. W.M.P. for overseas service.

If it did nothing else the public meeting held last Friday night justified itself by the clearing up of the school trouble. Among other things it revealed the fact that the foundation now built of brick and tile is superior to and cost more than the concrete. In this connection we have since learned that the task of getting the gravel for the concrete was left to the Trustees, who however were unable to obtain it locally. To get it from some other source would have entailed in costing considerably more, and it is understood the contractor took the matter up with the Trustees and the architect, and eventually with the government, and it was agreed to put in brick and tile, which was already installed in costing considerably more than the material specified. The rest of the building has been proven to be of first-class construction throughout and erected according to plans and specifications, excepting some minor changes that are invariably found to be necessary with almost any building. It may also be added that the contractor has placed several things in the building not called for in the plans, all however ensuring a better structure. Altogether we believe the contractor equally with the architect is deserving of much credit for the work done. Those ratepayers who were present at the meeting last Friday night will remember that every question put to Mr. Lang elicited a very satisfactory reply, and those members of the audience who had the courage of their convictions to publicly acknowledge their satisfaction voiced, it seemed to us, the opinion of the majority of those present.

In view of the criticism heard in town relative to our new school the Review believes it is but doing its duty in making this acknowledgment and trusts that the atmosphere has now been sufficiently cleared to allow of the matter being dropped and a better understanding made possible between the citizens and those responsible for the new school.

The little daughter of Mr. and Mrs. Pippard, who are temporarily staying at All Saints' Rectory, has been seriously ill for the past week or more from an attack of meningitis. At the time of writing the child has been unconscious for some time and grave doubts are entertained as to its recovery.

A regular meeting of the local Masonic Lodge will be held on Tuesday next.

The other twin baby of Mrs. C. Smith, Fertile Plains, died on Monday and was buried the next day. It will be remembered that she lost the first one about two weeks ago.

A commissioner sent by the department of Municipal Affairs at Edmonton arrived here on Tuesday's evening train to confer with some of the citizens relative to the Town Council. A meeting was arranged for eight o'clock and about a dozen business men attended. As a result of the consultation that ensued, it is understood that the commissioner will recommend to the department at Edmonton that a returning officer be appointed, and the regular procedure adopted as at the annual election. Failing the department to agree to this, Mr. Stewart agreed to return to form a quorum of the Council and thus permit of that body having a meeting and appointing a returning officer (local).

The latter would have the loss of about a week. Mr. Stewart's return, however, will of course have to be sanctioned first by the Minister for Municipal Affairs.

Divine service will be held at All Saints' Church on Sunday next at 7:30 p.m.

The marriage took place at the Lutheran Parsonage, on Wednesday, May 15th, of George Peterson of Medicine Hat to Miss H. Aberg of Stockholm, Sweden.

Four seven-months-old pigs were sold by Mr. T. Roberts this week for \$15.00. The scarcity of pork has apparently not been exaggerated.

Mrs. P. Sutton left last week to join her husband at Retlaw Alberta, where the good wishes of a large number of friends follow her. The house recently vacated by her she has sold to Mrs. Rushworth, who moved in this week.

Mrs. L. A. Ostrom left on Tuesday to pay a visit to friends in Calgary.

The Review had a break-down last week in its newspaper press as printing was under way. When the break occurred enough newspapers fortunately had already been printed for the town and country. Outside points, however, have been obliged to wait until the machine could be fixed. This was assumed to be accomplished by Tuesday of this week. Owing, however, to labor shortage and other causes of the family it was not possible to have the defective part returned to our office until today, which of course has put us behind this week.

The coal tipple which is being removed from Lethbridge to Bow Island will be erected about a hundred yards west of the water tank. An extra gang arrived on Thursday and work in connection with the tipple will be proceeded with as fast as possible.

The effort being made by the Bow Island branch of the Red Cross for monthly contributions is, we understand, being met with a fair amount of success. A meeting will be held this evening when the result probably will be made more fully known. Mr. Robertson, who together with several of our citizens has been canvassing the country for donations, reports to have received about \$200.

Next Sunday, May 19th, is "United Farmers' Sunday," and a special service to commemorate the event will be held in the United Church, at which all farmers are particularly invited.

Good Cheer S.D.

Art Lindquist and family and Mr. John Briggeman and Miss Laura Johnson visited Mrs. Lindquist's sister, near Seven Persons on Sunday.

Mr. Robertson and Mr. Holte canvassed our district last Monday in the interest of the Red Cross.

Mr. Currie and family spent Sunday at the home of Mr. Ed. Gosselin, near Winnipeg.

Mr. Pete Peterson, Mr. John Hegan and ladies took in the picture show at Bow Island Saturday night.

Mr. R. A. Salsbury and wife visited at the home of Mr. Peavey Sunday.

Miss Marion DePew was a caller in this vicinity Sunday.

Mr. Walter Marden of the L.J. Trench was up before the Military Medical Board at Lethbridge last week.

Mr. John Briggeman who has been on the sick list but is now somewhat better, left for Calgary on Monday to take the medical examination for military service.

Mr. Pete Peterson is building an addition to his house. Pete's motto is, "The cage first and the bird afterwards."

Mr. Robt. Salisbury and wife, Mrs. D. Amos and Wm. Amos took in the night at Bow Island last Saturday night.

Mr. Jacobson, who has been in the Medicine Hat hospital, has returned home somewhat improved.

Mr. Wm. Amos was called before the military board at Calgary on the 14th.

Mr. Jules Lavigne was before the military board at Medicine Hat last week.

Mr. Tommy Sney, who is working for Art Lindquist, put in his own crop last week.

Mr. Quenzell Evans made a hurried call at the Peavey home last week.

It is understood by the School Board that the district has a "special" correspondence with the Department of Education at Edmonton.

"JOVEY."

"Mother's Day" Service.

On Sunday evening a large congregation had just gathered in the Burdett Church for the Mother's Day service when the news came that the hotel was on fire. In a few minutes not a person was left in the church. But after the fire had been put out most of the congregation returned and the service was commenced at 9:15 p.m. It lasted an hour and each part was given well. Seven little girls sang an appropriate hymn. One girl and three boys each gave a short recitation, and the whole school participated in the responses and special hymns. The regular program was closely followed and enjoyed by all.

The church was prettily decorated with home plants and carnations. Each scholar and every mother present were given a carnation and all went home well pleased with the service, which reflected great credit on the faithful workers in the Methodist Sunday school.

Something New Something Helpful, The B-H Color Scheme Adviser

WOULD you like to "face" your house in its new coat of paint, before you paint it? You can. The Brandram-Henderson "Color Scheme Adviser" enables you to try out different color combinations before deciding on the color scheme most pleasing to your eyes.

The unique device consists of a transparent outline of a house, behind which you place color cards of every known shade—one color for the walls and another color for the roof. With the transparent sheet, there comes a set of 40 cards each of a different color. First you try a white card on the walls, in combination with a great card for the roof. Then you try a brown card behind for wall section of the transparency, along with a red card for the roof. And so on, until you have exhausted the possibilities of every known color combination. We have one of these "Color Scheme Advisers" and will be pleased to let you experiment with it before you select your

B-H PAINT
"ENGLISH" 70% Pure White Lead
70% Pure White Lead
70% Pure White Lead
For the Spring painting of your house or any other building. Of course you are going to paint this Spring—and equally, of course, you are going to use B-H "English" Paint—the paint with the guarantee behind it.
Our store is the B-H Store—which means that this is paint headquarters. The outstanding reputation of this brand is based on its superior covering capacity and exceptional durability—both of which features we know to be due to the combination of Brandram's Genuine B-H white lead and pure white zinc, which the makers of B-H "English" Paints maintain in spite of the repeated advances in the cost of these ingredients.

Messrs. Harris & Kleinsche, who have contracted to put down a number of water wells in the district, received their drilling rig last week, and on Saturday commenced drilling a well at W. Andrews, farm. The result of their work will be watched with considerable interest by many, because we all realise the significance of being able to obtain abundance of water. It would mean among other things keeping more live stock and for the district this would bring another source of revenue.

E. Jubli is erecting a house in town near Abbott's blacksmith shop.

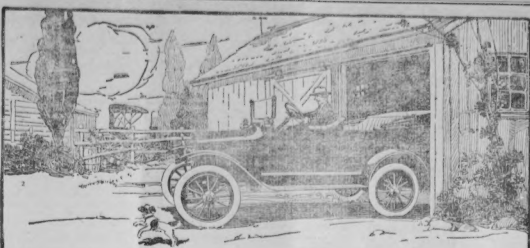

Don't forget the big dance on May 24th, in the Majestic.

Considerable excitement was caused here in town Sunday night by a fire which occurred at the Burdett Hotel. It was first detected about 8.30 and by that time had secured a firm hold. Apparently it started in the clothes cupboard on the second story and situated between the bedrooms, from thence spreading to the adjoining rooms and before it was got under, in doing considerable damage. In three or four rooms the roof was burnt through and the rafters destroyed, and how the main building escaped is something of a mystery. Only the untiring efforts of a willing and indefatigable body of workers saved the situation and building. To these workers and to the fact that Mr. Brown had quite a number of fire extinguishers on hand is mainly due the fact that there was not a worse conflagration. How the fire originated no one knows. There was no fire in the kitchen and the electric lighting plant seemed to be in perfect working order, so that it could not be laid to either of these. More mysterious still, simultaneously with the fire above another outbreak was noted in the basement. This fortunately was noted before any great amount of harm was done. The two outbreaks occurring at the same time has, however, led some to suspect incendiarism, but how much truth there is in this it is of course, impossible to say. Sufficient it is that Mr. Brown has not only been put to considerable loss on account of the damage done but also to the fact that no revenue will be derived from this sleeping apartments for some time.

The citizens regard the event as a blow to the town, for such indeed it is, and a general regret for the fire is expressed on all sides.

President Snow and Council for Allen of the Church of Latter Day Saints of Raymond, accompanied Apostle Grant, one of the twelve apostles of Salt Lake City, Utah, on his visit to Burdett Monday night to organize a ward. The meeting was held in the Majestic Theatre and there was a large attendance. Officials of the Church were elected as follows:—A. W. Fletcher, Bishop; David M. Hall, C. L. Brumdale, and John Cleavelly, Councillors; John F. Hamilton, Sunday School Supt.; Apostle Grant was the chief speaker of the evening and gave a splendid address. As a result of the organization it is understood that a church will be erected here in the very near future.

A conference of the Latter Day Saints was held at Burdett on Saturday and Sunday last, and those who attended report a very successful meeting.

Replace Your Buggy With a Ford

MORE than 100,000 Fords are owned by people in Canada in preference to the old horse-drawn buggy and other makes of cars.

Your neighbors, and farmers in every section of the Dominion are abandoning their old buggies—selling their driving horses and buying Fords.

Ford cars are utility cars. They are built to endure the strain of constant daily use over rough roads.

These are the tests every farmer gives his car. The Ford meets them in a satisfactory manner. It is the farmer's car, so why not replace your horse and buggy with a Ford?

Ford

Those attending from Burdett included the following:—Mr. and Mrs. W. Lyons, Mrs. S. Fletcher, Mr. and Mrs. J. Llewellyn, Mr. and Mrs. A. H. Rygg, Mr. and Mrs. Jas. Ashton, Mrs. R. Fletcher and several others.

Mr. and Mrs. Colman wish to thank everyone who so warmly contributed to the welcome accorded their son Donald, Thursday evening, May 9th, on his return from France.

Eggs laid in April, May and early June keep better than those laid later in the season. If properly treated they will keep in perfect condition from eight to twelve months. If the eggs are to be boiled, the larger end should be pierced with a needle point before putting them in the boiling water.

The eggs, to begin with must be fresh and clean, not washed clean, but laid clean. If the shell of the egg is not clean, use it at once. If there is a spot of soil on the shell, the water glass does not come in contact with the shell and the egg will decay.

A quart of water glass in a five gallon crock or agate-wear container will suffice for 15 dozen eggs. Clean the crock thoroughly, scrub till hot, wipe dry and stand in the sun, if convenient.

Boil 15 quarts of water, allow it to cool thoroughly, then add the water glass and stir well in the crock. Stand the crock in a cool, dry place and do not move unnecessarily after the eggs are packed. Put the eggs loosely, but carefully, in the solution, leaving a depth of two inches or more over the top layer of eggs. Tie heavy old paper over the crock to prevent evaporation.

For more than fifteen dozen eggs, two crocks are preferable to one large one. After using the water glass once, it must be thrown away.

If water glass is undesirable or too expensive, add three pounds of unsalted lime to five gallons of water. After the lime has dissolved and settled, carefully dip off the clear water and pour over the eggs so that the water covers the eggs till it has thoroughly cooled.

Splendid Music at Chautauqua

Witepskie's Concert Orchestra Appears in Two Concerts on Fourth Day

WITEPSKIE'S CONCERT ORCHESTRA.

Witepskie's Concert Orchestra, which comes on the fourth day, is the greatest musical feature of the Chautauqua as well as one of the most popular Chautauqua attractions of the platform. For many years this prominent Chautauqua organization has occupied a conspicuous place in the musical world.

Meyer Witepskie, the director, is a young Russian whose merits as a musician, composer and director have attracted favorable attention in all the musical journals in during the past few years. He has surrounded himself with a company of splendid musicians. Their long association with him on concert tours throughout the United States and Canada has resulted in their playing as one man, in perfect unison.

From the standpoint of glorious music their two programs on the fourth day are artistic triumphs. Nor do you have to be musically educated to appreciate their playing. Their concerts are fit for all the people—a splendid combination of popular, patriotic and classical music. In the evening Gladys Shaw, Canadian prima-donna soprano, will appear as soloist.

At Bow Island, June 13th to 19th.

The Ladies' Aid will meet at Mrs. S. Beath's on May 23rd. Everybody welcome.

Mrs. J. Chisholm and her mother, Mrs. McLean, spent a couple of days in Medicine Hat.

Mr. Darrell Fisher and family motored to Medicine Hat last week and spent several days there on business.

Miss M. Schultz, modiste of Medicine Hat, and Mrs. Bessie Cook visited Mrs. G. W. Parker for several days this week.

W. Briggs of Medicine Hat is visiting friends in Winnifred.

Mrs. G. W. Parker was the delightful hostess at an attractive luncheon on Saturday, May 11th, given as a compliment to her guest, Miss M. Schultz of Medicine Hat. The afternoon was spent in games and some elegant prizes were given. Mrs. Darrell Fisher and Mrs. Bert Colthrop were the successful winners. In the contest, the consolation being awarded Miss James Larson. The home artistically decorated. Red, white and blue were the predominant colors and vases of red carnations were on the tables. Covers were laid for forty ladies. Mrs. G. W. Parker most attractively entertained her friends and the event proved to be one of the most delightful of the season, everyone going away whole-hearted for the afternoon's enjoyment. Mrs. James Larson supplied the music, Mrs. Teddy Winchester and Mrs. Bowman rendered solos, and Mrs. Harvey Davis and Mrs. Jan. Larson assisted in serving.

Note.—An anonymous communication was received by the Review this week from Winnifred relating to a Chinese social. The Review invites correspondence upon any subject and will be glad to receive items of news that is likely to be of interest to its readers, yet it must be recognized anonymous communications cannot be accepted, otherwise all kinds of trouble would be ahead. It may be added that the name of a correspondent is not necessarily required for publication, but rather as a guarantee of good faith.—Ed. Review.
